

XM Radio is PAY service so therefore I should have a choice and I choose to have NEWS, TRAFFIC, and WEATHER on XM's airwaves! You cant tell the cable companies what to broadcasr because thats a pay service as well....if you dont want to listen to it or watch then you know what....dont pay for it!XM is new technology just like the DVD replaced VHS and VHS replaced BETA. Eventually Sattelite radio will have a larger market share and even now it provides a better quality of service then standard radio. NAB Petition 04-160 is a waste of time and energy and I am sure some of my tax money as well. Go after the Opie and Anthony's, the Howards Sterns...stay away from our PAY radio!
